WORK EXPERIENCE

Senior Frontend Developer · **FABMEDIA** Oct 2024 – Present | Lahore, Pakistan

Frontend Development

- Developed and maintained scalable web applications using Vue.js, Nuxt.js, TypeScript, JavaScript, Tailwind CSS, and Bootstrap.
- Performance & API Integration
- Led frontend development efforts, optimized performance, integrated APIs, and delivered responsive, user-friendly digital experiences.

Collaboration & Code Quality

- Collaborated with cross-functional teams, mentored junior developers, and followed best practices to ensure high-quality code and efficient project delivery.
- Collaborated with cross-functional teams, mentored junior developers, and followed best practices to ensure high-quality code and efficient project delivery.
- Built custom themes, plugins, and WooCommerce solutions while owning client deliverables end-to-end

Project Delivery

- Maintained clean, scalable frontend implementations across modern web products.

WordPress Developer · **FABMEDIA** Jun 2022 – Oct 2024 | Lahore, Pakistan

- Led PHP and WordPress development, building custom themes, plugins, and WooCommerce solutions while mentoring junior developers.
- Owned client deliverables end-to-end and delivered maintainable CMS and e-commerce solutions.

Junior Frontend Developer · FABMEDIA March 2021 – Jun 2022 | Lahore, Pakistan

- Developed and maintained responsive websites and web applications using HTML, CSS, JavaScript, PHP, MySQL, WordPress, and Laravel.
- Assisted in implementing new features, troubleshooting issues, optimizing performance, and collaborating with development teams to deliver high-quality digital solutions.

PROJECT PORTFOLIO

Selected highlights from live, production client platforms:

► Rental Management System [Nuxt 3]

Frontend Implementation: Architected the front-end layer for an end-to-end rental platform, ensuring seamless communication with the Laravel backend API.

► All Clear Diagnostics and Calibration [Wordpress, Custom Theme Development, PHP, WooCommerce]

Custom Theme Development: Architected and developed a fully bespoke WordPress theme from the ground up, utilizing Tailwind CSS to create a responsive, modern, and highly maintainable design system.

► Vensys [Laravel, Tailwind, Slack API, WeChat API]

Full-Stack Development: Architected and engineered a custom agency platform from the ground up using Laravel and Tailwind CSS. Implemented external API integrations including Slack for team communication workflows and WeChat to expand user engagement and connectivity.

► Dynamic Automotive Solutions [Wordpress, Custom Theme Development, Tailwind, PHP, WooCommerce]

Custom Theme Development: Architected and developed a fully bespoke WordPress theme from the ground up, utilizing Tailwind CSS to create a responsive, modern, and highly maintainable design system.

► LedgerMate Website [Nuxt 3, Tailwind]

Modern Frontend: Built a high-performance, responsive user interface using Nuxt 3 and Tailwind CSS, ensuring a seamless experience across all devices.

+ additional deliveries: invoice management systems · WordPress/WooCommerce sites · Restaurant management system.

WHAT I BRING TO YOUR TEAM

- Strong frontend development experience with Vue.js, Nuxt.js, TypeScript, JavaScript, Tailwind CSS, and Bootstrap.
- Ability to build responsive, scalable, and user-friendly web applications with clean, maintainable code.
- WordPress and WooCommerce development experience, including custom themes, plugins, and client-focused CMS solutions.
- API integration and performance optimization experience across modern web projects.
- Cross-functional collaboration with design, backend, and project teams to deliver high-quality digital products.
- Mentoring experience with junior developers and a focus on frontend best practices.
- Practical full-stack awareness through Laravel, PHP, MySQL, WordPress, Shopify, and related web technologies.
